Central Health recruits family physician to region

Central Health is pleased to welcome a new family physician to Dr. Hugh Twomey Health Centre in Botwood.

"Family physicians are a very important part of health system and we have been working very hard for several months to recruit physicians to our region," said Dr. Michael Zuckerman, Vice President of Medical Services. "We know how important access to health care providers is to the people of the central region so this is positive news for residents of the Botwood area."

The addition of this family physician to the Dr. Hugh Twomey Health Centre fills the compliment of physicians in this area. Central Health's newest family physician has been working in Botwood for approximately one month and brings in excess of eleven years experience in family health practice to the area.

"We are very happy with the results we are seeing from our physician recruitment efforts, but we know that there are still areas of need throughout our region," said Dr. Zuckerman. "We will keep working on those and we hope to have more good news to report in the future."
