Connaigre Peninsula Health Centre closed to visitors

Central Health wishes to advise that, effective immediately, Connaigre Peninsula Health Centre in Harbour Breton is closed to visitors due to the presence of influenza-like-illness (ILI).

The needs of clients are being met through ongoing care from staff.

Family members who have any questions should contact (709) 885-2043 and ask to talk with the nurse in charge.

The public's cooperation is requested as we put these precautions in place to prevent the further spread of this virus.
