Central Health implements a toll free Pandemic Information Line

Central Health has implemented a toll free pandemic information line, effective immediately. People within the central region can call 1-877-311-2613 for information on H1N1 Pandemic Influenza.

The pandemic information line will provide clients information on: the mass immunization schedule; the priority groups for the H1N1 vaccine; limited visitation restrictions; and, on what you should do if you think you have H1N1. There will be automated messages however clients will be able to speak to an information officer as well.
