Four Family Physicians recruited to central region

Central Health is pleased to announce that it recently signed contracts with four new Family Physicians to begin practice in Gander.

"Family Physicians are a very important part of health system and we have been working very hard for several months to recruit Family Physicians to Gander," said Dr. Michael Zuckerman, Vice President of Medical Services. "We view this as a very positive step forward in our physician recruitment efforts because it fills a gap that has existed for some time."

The four new family physicians are currently in the process of setting up a new private practice in Gander. It is anticipated that the practice will be operational by the new year.

"We are moving forward with our physician recruitment efforts," said Dr. Zuckerman. "We know that there are still areas of need throughout our region and we are continuing to work diligently to bring more physicians to the region to improve services for clients."
