Full Visitation Restrictions at Notre Dame Bay Memorial Health Centre

Central Health wishes to advise that, effective immediately, Notre Dame Bay Memorial Health Centre is closed to visitors due to the presence of influenza-like-illness (ILI).

The needs of clients are being met through ongoing care.

Family members who have any questions should contact Notre Dame Bay Memorial Health Centre at 884-2131 and ask to talk with the nurse in charge.

The public's cooperation is requested as we put these precautions in place to prevent the further spread of ILI.
