Full visitation restrictions in place on Units 3A and 3B in Central Newfoundland Regional Health Centre

Central Health wishes to advise that, effective immediately, **full visitation** restrictions are in place on Units 3A and 3B in Central Newfoundland Regional Health Centre in Grand Falls-Windsor due to the presence of Norwalk-like illness.

The needs of residents are being met through on-going care from staff. Family members who have any questions should contact the switchboard at Central Newfoundland Regional Health Centre by calling 292-2500 and ask to talk with the nurse in charge on Units 3A or 3B.

Visitors are asked to wash their hands at the provided hand sanitation station upon entry and exit of the building. Individuals with symptoms of nausea, vomiting and/or diarrhea are asked not to visit any health care facility.

The public's cooperation is requested as we implement these precautions to prevent the further spread of this virus.
