Twillingate & Area

- Call.....(709)884-1414

As per the Motor Carrier Regulations an ambulance service shall charge rates established by the Minister of Health and Community Services.

Currently the fee for road ambulance is \$115. There is also a \$50 escort fee associated with ambulance services when it is medically required that an escort accompanies the client.

Client fees are for ambulance services and not necessarily client transport. If a client requires medical assistance by the ambulance personnel then refuses transportation or is deemed not to require road ambulance transport by medical authorities, a patient fee is applicable. Please note that a fee of \$130.00 is charged to a patient that is transported as a result of an approved air ambulance medevac.
