

Central Health  
Board of Trustees

*Board Chair Report*

January 2019

I'm pleased to share my January 2019 report with the community. Work continues in 2019 on the priorities set by our governance team.

The Implementation Steering Committee met on November 29<sup>th</sup>. With work having been initiated on over 90% of the External Review recommendations to date, and with 17% of the recommendations completed, I am pleased with the progress. Updates are available on [www.centralhealth.nl.ca](http://www.centralhealth.nl.ca).

Following our first physician forum in December, a group of physicians is collaborating on a Terms of Reference for a Physician-Board Liaison Committee. At the next physician forum in February, I look forward to another great day of collaboration, open communication and cooperation as physicians, Board Trustees, and our Senior Management Team work together as a cohesive leadership team.

Thank you for your interest in the work of Central Health's Board of Trustees, Central Health's business operations, and most importantly – your own health, and for supporting our vision of *Healthy People, Healthy Communities*.

**The next open Board meeting is scheduled for February 26<sup>th</sup> in Grand Falls-Windsor.**

Don Sturge  
Chair, Central Health Board of Trustees
