HEALTH SHARED SERVICES SUPPLY CHAIN DEPARTMENT (SS-SCD) VISION:

an integrated supply chain model that ensures right products and services are available at the right place and the right time at the best price to support safe, efficient and effective health care

YEAR IN REVIEW 2022

Many supply chains worked extraordinarily hard in 2022 and our own Provincial Health Supply Chain was no different. The below table highlights some metrics of our work in 2022:

| Metric | Qty |
|---|---------|
| # of Purchase Orders (PO) issued | 101,290 |
| # of PO Line Items | 346,257 |
| # of Contracts executed | 446 |
| # of contracts initiated by Health Org. | 765 |
| # of inventory turns | 10 |
| # of product and vendor complaints | 146 |
| # of items in main inventories | 15,955 |
| # of Open Calls issued | 180 |
| # of product recalls processed | 2,399 |

We give our sincere thanks to our internal Supply Chain team as well as our vendors and transportation and logistics partners for another successful year!

WESTERN HEALTH – NEW HOSPITAL DELIVERIES

Western Health continues its construction of a new acute care hospital in Corner Brook, and as our Vendor Management team have communicated in the past, the site management team have specific requirements related to delivery of goods for this site. In an effort to streamline operations for our vendors, transportation partners, and on-site personnel we ask that our vendor partners adhere to the delivery instructions that are included with every Purchase Order (PO) issued for this site – details are also located on our website (under [2022-07-14 Western Health New Acute Care Hospital Delivery Requirements](#) and [2022-07-21 Western Health New Acute Care Hospital Ordering FAQ](#)).

We recognize that many of our vendors avail of third party transportation and logistics providers so we ask that you inform any third party provider of the site requirements, particularly of the 48 hour advance notice for deliveries otherwise deliveries may be rejected.
