

Central Health Board of Trustees

Board Chair Report

January 2021

I'm pleased to share highlights from our open board meeting, held January 26, 2021.

Central Health is aiming to have all health care workers in the region vaccinated within the first quarter of 2021 and is well on its way to accomplishing this goal, pending available vaccine supply.

Central Health's Public Health team has also administered the vaccine to people in long-term care homes in both Gander and Grand Falls-Windsor with more to come in the next few months.

On January 14, the Board Executive and Central Health's Senior Management Team held an online stakeholder engagement session with the community of Buchans and the surrounding area.

These stakeholder engagement sessions provide a better understanding of the things that are most important to residents when it comes to Central Health's healthcare services.

The next stakeholder session is scheduled for Baie Verte on Thursday, February 16.

The Board would like to thank the many volunteers who make up the many Auxiliaries that support health care across Central Newfoundland. Their hard work and dedication help provide needed equipment and supplies.

The Board would also like to thank the many people who have gone above and beyond in this past year to provide safe and sustainable health care to the people of Central Newfoundland.

The next open board meeting is scheduled for March 17, 2020 and will be broadcast live at www.centralhealth.nl.ca/virtual-meetings
