

PEERS Young Adult Program Referral Form

PEERS (Program for the Education and Enrichment of Relational Skills) for young adults is a 16-week evidence-based social skills intervention for individuals aged 18-38 to learn about making and keeping friends and developing romantic relationships. During weekly meetings participants are taught skills to use in their daily lives and social coaches are taught coaching skills. Topics include conversation skills, hosting get-togethers, electronic communication, handling conflict, dating skills and others.

A social coach is required to attend all weekly sessions. *Please see attached hand out on social coach roles and responsibilities.*

The group will run virtually so it is important that you have access to equipment and reliable internet.
