

October 22, 2021

To our valued vendor community,

This notice is to provide a correction to yesterday's notification regarding mandatory vaccination for vendors and contractors visiting our long-term care, personal care, assisted living, and community care facilities. Current Special Measure Order **does not** apply to vendors, contracts or service providers.

We apologize for any confusion our previous notice may have caused and encourage our vendor community to access the Province's [Guidance for Residents webpage](#) regularly for updates.

Thank you for your continued support and understanding!

Stay safe!

Vendor Management Team
