

VENDOR PARTNER NEWS

August 2023

**NL Health
Services**

HEALTH SUPPLY CHAIN DEPARTMENT VISION:

an integrated supply chain model that ensures the right products and services are available at the right place and the right time at the best price to support safe, efficient and effective health care

PRODUCT EVALUATION/DEMONSTRATION

Vendors play a vital role in the delivery of patient care and the operations of our sites. As such, vendors are often keen to demonstrate new products and services to our physicians, clinicians and end-users. While these internal teams are equally keen to stay abreast of the latest trends and technologies, we need to balance that sense of discovery with the obligations contained within our current contract / vendor commitments to ensure legal compliance. To that end, when engaging with our internal teams, please remember that our Supply Chain Department is here to be the primary facilitator between our end users and our vendors.

As a friendly reminder for those vendors who engage with our internal teams on-site for training and educational support, please be respectful of their time and connect with your contact by email and arrange a meeting time. Please also be careful to not interfere with any existing Contracts and Open Call processes. If you have any questions or concerns, please reach out to our Vendor Management team by emailing vendor.relations@centralhealth.nl.ca

NL HEALTH SUPPLY CHAIN WAREHOUSE MOVE

This is a reminder that NL Health Supply Chain will be moving its provincial warehouse to a new location this week. This change will apply to **EASTERN ZONE (URBAN)** purchase orders and deliveries. For more information, please see last month's newsletter on our [Vendor Announcements Page](#).

We appreciate your patience and cooperation as we make this move!

FUTURE NEWSLETTERS

We're keen to receive your feedback on our monthly Vendor Partner Newsletter! What type of content you would like to see more (or less) of and how future newsletters might be improved. Please email your feedback to vendor.relations@centralhealth.nl.ca
